

Leeds Safeguarding Children Board

Third Sector Sub-Group

(Voluntary, Community and
Faith based organisations)

Our aims are:

- To ensure the Third Sector (ie. voluntary, community and faith based organisations) are involved in the development of policies and procedures relating to Child Protection.
- To share good practice around Child Protection.
- To continue to develop innovative work, and share the results.

Getting involved

There are many ways your organisation can get involved:

- Attend our quarterly meeting.
- Join our mailing list.
- Come and give a presentation about your organisation to our group.
- Offer to be a point of contact for other organisations on a certain issue/topic.

Who we are:

The sub-group membership consists of representatives from Third Sector agencies that work with/advocate for children and young people in Leeds.

What we do:

As a group, we meet quarterly to discuss issues of Safeguarding and Child Protection in relation to the Third Sector.

Our purpose is two-fold:

- We act as a link between the Third Sector and the Safeguarding Board to share views, information good practice, research and funding opportunities.
- We look to support Third Sector organisations, big or small, in developing and maintaining robust child protection and safeguarding policies and procedures through training, information and knowledge sharing.

We aim to ensure that we are representative of the many diverse communities and issues the Third Sector represents.

We recognise that there is a wealth of good practice, knowledge and experience held by voluntary, community and faith based organisations.

By getting involved with the Sub Group, you are helping us achieve our goal to be representative, benefiting other organisations with your expertise and ensuring that your views and considerations are taken into account by Leeds Safeguarding Board.
